### Description

Location: this is one of the key things we all tend to look at while searching for a place to establish roots in as a forever home. Once that is pinned down right to the neighborhood, so do the other factors come into play. However, with your sights set on this magnificent modern villa which has been built to create the illusion that it is cascading down from what might look like the edge of a cliff, you will be living your dreams, fantasies and then some in this incredibly positioned real estate.

The front side is all glazed walls to afford unrestricted views of the beautiful surroundings while the property is nestled by greenery on both sides and a residential area behind it. Luxuriate in this fully furnished house which has been built in a contemporary style through and through. With no cost spared to ensure that only the best quality materials have been used, the sitting room features very high ceilings which allude to generous space with very highly placed window slots to complete this perfect balance. The flowing floor plan then gives way to a dining room which can seat many people while entertaining as easily as it can fit only family members during those intimate family meals. You will also never experience a dull moment as you enjoy serenity and calm either by taking these precious moments outdoors or simply opening up to the scenic views from within.

There are 6 spacious bedrooms as well as 5 bathrooms in the premises in addition to the modern kitchen. And when you step outside of the secure reinforced doors, there is a lovely swimming pool. Call us today to learn more about this spectacular property.
